THE ELECTRICAL WORLD.

A WEEKLY REVIEW OF CURRENT PROGRESS IN ELECTRICITY AND ITS PRACTICAL APPLICATIONS.

Volume XX.

From July 2 to Dec. 31, 1892.

NEW YORK:
THE W. J. JOHNSTON CO., LTD.
167-176 TIMES BUILDING

ELECTRICITY MADE

INDEX TO VOLUME XX.

The weekly Departments are not indexed.

BOOK REVIEWS.

American Telegraphy, by Wm. Maver, Jr..... 94
Bericht Ueber die Verhandlungen des Internationalen Electro Techniker Congresses zu Frankfurt-am-Main, Erste Haelfte..... 2
Collected Papers of Wilhelm Weber..... 76
Comparative Merits of the Various Systems of Car Lighting. A. M. Wellington, and others. 192
Descriptive Index of Current Engineering Literature..... 192
Electric Traction on Railways and Tramways, by Anthony Reckenzaun..... 392
Electricity and Magnetism, by E. J. Houston . 426
Engineers' Epitome, by N. J. Smith..... 394
First Principles of Mechanical Engineering, by John Imrey and C. H. W. Biggs..... 76
Fortschritte Elktrotechnik..... 76
Gilbert, Translation and Fac-simile Reproduction of..... 325
Handbook of Tables for Electrical Engineers . 272
Law of Electric Wires in Streets and Highways, by E. Q. Keasbey..... 192
Matter, Ether and Motion, by A. E. Dolbear.. 76
New Dynamo Tenders' Handbook, by F. B. Badt..... 392
Original Papers on Dynamo Machinery, by Dr. John Hopkinson..... 426
Practical Directions for Winding Magnets for Dynamos, by Carl Hering..... 76
Practical Management of Dynamos and Motors, by F. B. Crocker and S. S. Wheeler 174
Scientific American Cyclopedia of Receipts, Notes and Queries..... 301
Spon's Tables and Memoranda for Engineers 326
Steam Engine, by David K. Clark 326
Telegraph Connections, by Charles Thom and W. H. Jones..... 272
Theory of Heat, by J. Clerk Maxwell..... 76
Tips to Inventors, by Robert Grimshaw..... 426

THE TELEPHONE.

Telephone and phonograph among the monkeys in Africa..... 53
Telephone, Atlantic, by Elihu Thomson..... 37
Telephone companies, Census statistics of, A. R Foote..... 27
Telephone exchange, Strowger's 97, 99
Telephone in Switzerland, The..... 369
Telephone line between New York and Chicago, Opening of..... 272
Telephone lines, Protection of, against induction..... 19
Telephone, Marcus' auxiliary mouthpiece for.. 46
Telephoning, French vs. English language for. 255
Telephony, Long distance, by Hugh Neilson. 26, 44

THE TELEGRAPH.

Cable relays, by Walter Judd 299
Postal telegraph building in New York City, New 101
Railway Telegraph, Superintendents' Association, Denver meeting of..... 2
Submarine cables, length of..... 71
Telegraph and telephone statistics..... 102
Telegraphy, Books on..... 206
Telegraph, Statistics of the use of..... 221
Telegraphers' strike, Prospect of a..... 129
Telegraphing without wires..... 397
Type Telegraph, American..... 54
W. U. Telegraph office, Nashville, Tenn., by W. F. Peck..... 131

ELECTRIC LIGHTING.

Arc lamp carbons, Feeding of, by electric heat movement, by S. E. Nutting..... 70
Arc lamp, Kester..... 62
Arc lamp, The "Success"..... 233
Arc lamp, Ward twin..... 422
Arc lamp, Waterhouse, Gamble & Co.'s..... 427
Arc lamp, Wirsching..... 149
Arc lamps, Irregularities of street lighting service with, by Paul Lüpke..... 294
Arc light station, Efficiency test of, by F. Bedell..... 164
Arc light station, Test of..... 159
Arc light, Use of, in opthalmoscopic examinations..... 20
Arc lights, Low tension, on Fifth avenue, N. Y. City..... 160
Central power station, An ideal, by C. J. Field..... 427
Central stations, by D. Thomson..... 26
Electric light plant at Oswego, N. Y..... 71
Electric light plant in Brazil, Westinghouse.. 117
Electric light at Frankfort, Germany, by Josef Herzog..... 174
Electric lighting displays in Budapest, by Josef Herzog..... 53
Electric lighting, Financial aspects of, by S. J. Parker..... 41
Electric lighting in London, by A. H. Bridge.. 190
Electric lighting in Milan..... 22
Electric lighting in Paris..... 62
Electric lighting of railway trains by the Silvey system..... 425
Electric lighting plant at Louisville, Ky., by H. K. Hitchcock..... 23
Electric lighting, Profit in 35
Electric lighting, Utilization of refuse matter for, by Prof. Geo. Forbes..... 121
Electric lights, Use of, for a huge sign in New York City..... 45
Fire hazards, Diminution of, since the introduction of electricity, by John McGhie..... 122
Fire losses, how they are prevented in England, by G. Binswanger..... 133
Fire risks and insurance in America..... 189
Fire risks and rules..... 221
Fire risks and rules in America..... 191
Fire risks in electric lighting..... 51, 83
Fire risks in electric lighting, by G. Binswanger..... 308
Fire risks in electric lighting, by W. E. J. Deming..... 85
Fire risks in electric lighting, by W. F. Holt.. 98
Fire risks in electric lighting, by C. T. Snedekor..... 99
Fire risks in electric lighting in England..... 129
Glow lamps, Comparison of vacua of..... 102
Headlight, Electric, Silvey's..... 3
Illumination, Electrical, at Washington..... 232
Incandescent lamp, American Elec. Mfg. Co's. 200
Incandescent lamp, Columbia, for railway service..... 167
Incandescent lamp curves..... 1
Incandescent lamp curves, by E. P. Roberts 9
Incandescent lamp manufacture, Attitude of the General Electric Co., by Eugene Griffin.. 272
Incandescent lamp, Packard's..... 13
Incandescent lamp, Sunbeam acorn shaped... 250
Incandescent lamp, The new Westinghouse, by L. K. Böhm 272
Incandescent lamp, Price of the new Westinghouse..... 374
Incandescent lamps, Advantages of forcing, at the expense of their life, by Carl Hering . 404
Incandescent lamps, Age coating in, by E. L. Nichols..... 313
Incandescent lamps, Cheap 319
Incandescent lamps, General Electric Co's new..... 382
Incandescent lamps, Life and efficiency of.... 35
Incandescent lamps, Life and efficiency of, by B. F. Thomas 42
Incandescent lamps, Life and efficiency tests of, by C. P. Feldman..... 395
Incandescent lamps, Life and efficiency tests of, by P. G. Gossler..... 175, 217
Incandescent lamps, Life of..... 403
Incandescent lamps, Separable and detachable, by L. K. Böhm 356
Incandescent lamps, Siemens & Halske's test of..... 207
Incandescent lamps, Substitution of, for dead resistances in arc lights..... 164
Incandesent lamps, Tests of: Reply to the Siemens & Halske tests..... 247
Incandescent lamps, C. Haubtmann's tests of. 309
Insurance risks, Electric stations, as, by Geo. P. Low..... 327
Lamp posts, Artistic..... 412
Lighting Buffalo from a tower at Niagara, by F. Day..... 165
Mast arm, Cardarelli..... 232
Moonlight tables for July..... 4
Moonlight tables for August..... 71
Moonlight tables for September..... 130
Moonlight tables for October..... 192
Moonlight tables for November..... 286
Moonlight tables for December..... 360
Searchlight, Candle-power of..... 387
Searchlight on Mt. Washington..... 115, 129
Searchlight, Submarine..... 133
Searchlights, Some of the uses of, by R. H. Bacon..... 321, 339
Switchboard, General Electric Company's..... 430
Whaleback Steamship Pillsbury Electrically lighted..... 414

ELECTRIC RAILWAYS AND RAILWAY APPARATUS.

Boyer speed diagrams, by Percy Matthews... 98
Brooklyn bridge, Electric cars on..... 403
Bucking of street railway motors..... 159
Bucking of street railway motors, by Geo. D. Shepardson..... 160
Car fender, Boston..... 357
Central stations, Importance of, in an electric railway system, by E. P. Roberts..... 258
Chicago & St. Louis Electric Railway. 189, 191, 404
Chicago & St. Louis Electric Railway, by R. M. Hunter..... 2
Chicago & St. Louis Electric Railway and the General Electric Company, Rumor regarding the..... 336, 452
City & South London Electric Railway, by Edward Hopkinson..... 38
City & South London Railway, Electric locomotives on, by S. P. Thompson..... 30
Conduit electric roads..... 35
Conduit road in Chicago, Love..... 37
Conduit roads, Pollak's system of..... 58
Conduit system for electric railways..... 292
Cost of operation, Relative, of horse, cable and electric roads, by W. M. Ramsey, F. R. Greene and J. L. Heins..... 278
Country roads and electricity, by Wm. N. Black..... 84
Electric locomotive, Proposed, for steam roads 86
Electric railway finances..... 129
Electric railways, A civil engineer's views on. 307
Electric railways for country districts, by F. L. Pope..... 165
Electric railways for rural service..... 83
Electric railway motor tests, by Geo. D. Shepardson and E. P. Burch..... 24
Electric railway reports, Unjust..... 307
Electric railroading abroad..... 83
Electric road at South Staffordshire, England. 372
Electric traction, Cost of..... 143
Electric traction in Germany at high speed.... 107
Electric traction, Recent improvements in, by H. L. McIntire..... 212
Expansion of continuous rails, Experiments on, by A. J. Moxham..... 276
Fire alarm circuits, Effect of railway currents on..... 84
Franchises for street railways in New York City..... 224
Ground return in electric railway circuits, by F. S. Pearson..... 357
High speed railroad records broken..... 351
Lead water pipes and electric railway currents, 67, 68 205
Lead water pipes, Corrosion of, by electric currents, by E. Speidel..... 98
Litigation, Electric railway, by Ralph Stone, 151, 163
Little Rock, Ark., Electric railway station of 119
Liverpool overhead electric railway, by J. H. Greathead..... 262
Locomotives, Electric..... 129
Locomotives, electric, Some results in actual working, by A. Siemens..... 134
Machine shops for electric street railways, Economy of, by J. H. Bickford..... 275
Motor, Short gearless..... 240
Motor, Short gearless, Efficiency curves of.... 259
Neversink Mountain Electric Road, Test of, by Hermann S. Hering and W. S. Aldrich, 5, 21, 38, 55, 73
New York City's first electric railway power plant..... 192
New York City's first trolley road..... 115
New York, Trolley system in..... 146
Overhead electric construction, A perfect, by C. H. Smith..... 275
Power plant, New York's first electric railway. 207
Rail Head: Is a standard one possible? By J. F. Ostrom..... 275
Rail (Price), Railway Appliance Co's..... 266
Railways, Electric, for rural service..... 83
Railway turnouts, by W. E. Harrington..... 322
Rapid transit in New York, Plans of..... 324
Roadbed, Model electric street railway, by G. W. Baumhoff..... 279
Series parallel electric traction..... 21
Series electric traction, by Cary T. Hutchinson, 328, 368
Series electric traction, by Nelson W. Perry. 359, 407
Sprinkler, Electric, for street railway..... 197
Standards for electric street railways, by O. T. Crosby..... 276
Steam locomotives, Tests of large, a correction, by C. K. Macfadden..... 301
Steam roads, Electric traction on..... 239
Steam vs. electric railroads..... 255
Steam vs. electric railroads, Costs of..... 271
Street railways, Electric disturbances from, by P. Whitman..... 130
Street railways, Management and operation of, by J. N. Beckley..... 208
Trolley accidents..... 291
Trolley in New York, The 221
Trolley, Philadelphia..... 265
Truck, Peckham cantilever..... 264
Underground electric railway for Berlin, Proposed..... 93
Vienna-Budapest high speed line 381
West End Street Railway, Boston, Mass., Annual report of..... 121, 329
West End Street Railway, Boston, Mass., Cost of operation of 149
Wiring, Underground, for street railways, by G. W. Baumhoff..... 279

ELECTRIC MOTORS AND THE TRANSMISSION OF POWER.

Applications of electricity in the Royal Dock Yards and Navy, by H. E. Dedman...101, 118, 168
Blower, Waddell-Entz..... 93
Crane, traveling electric, Test of a, by A. Victorin..... 371
Drill, reciprocating, Castarphen..... 249
Elevator, electric, A. B See..... 284
Elevator, electric, Central Foundry and Machine Co's..... 45
Elevator, electric, O'Donnell's 265
Fan motor, Bernstein alternating current.... 30
Fan motor, Lundell's..... 13
Fan motor, Wright Electric Co's..... 77
Fan, Sturtevant electric..... 183
Fan, ventilating, Barney's..... 108
Fan, Wing disc, and Diehl motor..... 46
Frankfort-Lauffen transmission, Efficiency of.. 1
Hat polisher, Electric..... 56
Hoist, An English electric..... 146
Horse vs. electricity in country work..... 159
Horses and electricity in country work, Comparative cost of, by W. N. Black..... 165
Lauffen-Frankfort power transmission plant, Efficiency of, by Carl Hering..... 8
Launches, Electric, for the World's Fair..... 37
Launch, Union Electric Co's..... 197
Long distance transmission of electricity..... 189
Macon, Ga., Long distance transmission plant for, by W. F. Holt..... 122
Mails, Rapid transmission of..... 335
Motor, Baebr..... 250
Motor, Commercial Electric Company's..... 430
Motor, D. & D..... 183
Motor, Delaware Electric Works'..... 46
Motor, Diehl..... 46
Motor, Duplex..... 14
Motor, Lundell's..... 85, 381
Motor, Lundell slow speed..... 429
Motor outfit for surgical and dental work..... 938
Motor, Packard..... 265
Motor, Perret, driving the presses of the Brooklyn *Citizen*..... 284
Motor, Railway, General Electric Co.'s..... 284
Motor, Sperry..... 259
Motor, The Dollar electric..... 200
Motor, Wagner..... 284
Motors without counter, E. M. F..... 419
Niagara Falls tunnel..... 324
Niagara Falls, Utilization of 193
Power distribution from central stations, by W. C. Unwin..... 121, 136
Power transmission at San Antonio, Cal..... 76
Power transmission by electricity in a Denver building 92
Power transmission plant in Portland, Ore... 92
Pumping plant, Electric, at the North Seaton colliery..... 368
Transfer table, Mammoth electric..... 407
Transmission of power, Electrical..... 205
Transmission of power, Electrical, for cotton mills, by C. J. H. Woodbury..... 370
Transmission of power from coal fields.....419, 423
Transmission plant between Tivoli and Rome. 145

DYNAMOS AND THE DISTRIBUTION OF ELECTRICITY.

Armature reactions, Method of balancing, by H. J. Ryan..... 323
Dynamo, Akron Mfg. Co.'s..... 264
Dynamo, American Giant 138
Dynamo and engine combined, An English .. 301
Dynamo and motor design, Some fallacies in, by F. B. Crocker..... 391
Dynamos and motors, Lecture apparatus for illustrating elementary principle of, by Carl Hering..... 322
Dynamo, Baehr..... 250
Dynamo, Commercial Electric Company's..... 430
Dynamo, D. & D..... 183
Dynamo designing..... 291
Dynamo design, Some anomalies in..... 313
Dynamo, Detroit Electric Works..... 46
Dynamo, Duplex..... 14
Dynamo electric machine, Reversibility of, by A. M. Tanner..... 313
Dynamo electric machinery, Designing, by R. V. Picou..... 292
Dynamo, Fritsche..... 368
Dynamo, Fritsche, Armature for the..... 324
Dynamo, Large Swiss slow speed..... 272
Dynamo, Lundell's..... 85
Dynamo, Modern development of the, W. Kohlrausch..... 371
Dynamo, Neutral points of a..... 267
Dynamo, Packard..... 265
Dynamo, Royal Electric Co's alternating..... 62
Dynamos, Bipolar, Load limits of, by A. D. Adams..... 300
Dynamos, Siemens & Halske..... 229
Generators Compound wound, Use of from a practical point of view, by W. M. Willis.... 363
Generator, A 500-h. p. multiphase..... 224
Generator, Direct coupled 500-h. p. Westinghouse..... 241
Generator, Westinghouse, New type of..... 239

ALTERNATING CURRENT PHENOMENA AND APPARATUS.

Alternating currents, by H. S Carhart 88
Alternating currents, by E. L. Nichols..... 88
Alternating currents, Some experiments with, Dr. Louis Duncan..... 87
Alternator, Ewing's high frequency..... 391
Alternator, Large American 205
Alternators, Design of..... 210
Armatures, Comparative output of direct, alternating and Drehstrom..... 102
Currents of high tension and frequency..... 117
Curve tracer, Ewing's magnetic, 113, 114, 223, 367, 373
Discharges, 64-inch..... 387
Drehstrom patent, The..... 209
Drehstrom patent, The, by Nikola Tesla..... 222
Drehstrom patents, Rankin Kennedy..... 324
Frequencies, Lower..... 351
Frequency of polyphase current system, by C. P. Steinmetz..... 130
Harmonics, Effect of in the transmission of power by alternating currents, by Henry A. Rowland 368
Hysteresis, Effect of temperature on 100
Hysteresis, Law of, by C. P. Steinmetz..... 285
Induction motor: Who invented it, by J. F. Kelly..... 260
Induction motor: Who invented it, by Rankin Kennedy 372
Iron, Magnetization of, in an alternating field. 102
Motor, three-phase, Alleged superiority of, by J. F Kelly..... 36
Multiphase current system, Remarks on Dobrowolsky's reply, by C P. Steinmetz..... 36
Multiphase current systems, Reply to attack on, by M. von Dolivo-Dobrowolsky..... 4
Multiphase currents, Electrical distribution by, by Rankin Kennedy..... 210
Multiphase transmission and distribution of electric energy, A. Reckenzaun..... 58
Multiphase transmission in America..... 239
Polyphasal currents, Mechanical illustrations of, by Paul A. N. Winand..... 310
Self-induction and distributed static capacity in a conductor, Effects of..... 411
Self-induction of a coil, Determination of, from its dimensions, by Edwin Place..... 340
Three-phase motor in Europe, by Oscar von Miller..... 143 149
Three-phase transmission..... 144
Transformer, A universal, by G. M. Appolonj. 372
Transformer, Royal Electric Co.'s..... 6
Transformer, Stanley, Test of a, by Harris J. Ryan..... 206
Transformer testing..... 403
Transformer, Theory of the, by H. A. Rowland..... 20
Transformers, alternate current, Experimental researches on, by Dr. J. A. Fleming..... 413
Transformers, Alternate current, of 6,000 watts capacity..... 160
Transformers, Commercial efficiency of..... 239
Transformers, Efficiency of, at different frequencies, by W. E. Ayrton and W. E. Sumpner..... 226, 243
Transformers, Measurement of hysteresis and eddy current losses in, by S. Evershed and E. B. Vignoles..... 246, 263
Transformers, Opened and closed magnetic circuit..... 392
Transformers, Westinghouse, Tests of, by John Hopkinson..... 40, 57
Two-phase vs three-phase systems, Comparative meters of, by C. E. L. Brown..... 114

ELECTRICAL MEASUREMENT AND MEASURING INSTRUMENTS.

Ammeter, non-inductive, Cutler's..... 330
Ammeters, Non-polarized, by C. E. Gifford.... 407
Ampère-Centimetre, a measure of electromagnetism 2
Ampère meter, Elec. Eng. & Supply Co.'s..... 250
Current indicator, Swan's..... 264
Electrical standards..... 419
Galvanometer, Constant sensitiveness of..... 107
Galvanometer, Queen's deadbeat revolving ... 398
Indicators, Wirt electric..... 382
Key, portable testing, Queen & Co.'s..... 14
Lamp hour recorder, Pattee's..... 137
Magnetic balance and its practical use, A, by H. E. J. G. DuBois..... 198
Magnetic field measurements..... 173

150653

Magnetic fields, Portable instruments for measuring, by E. Edser and H. Stansfield 180
Measurement of current and potential, Wiping contact methods for, by B. F. Thomas 7
Measuring apparatus, Queen & Co.'s electrical 315
Ohm, The future, by C. E. Guillaume 274
Potential indicator, Queen & Co.'s 329
Voltameter, A curve-writing 1
Voltmeter, Cutler non-inductive 414
Voltmeter, Electrical Eng. & Sup. Co.'s 250
Voltmeter readings, Disturbances of 1

MINING.

Drill, Jeffrey electric 381
Drill, mining, General Electric Co.'s 138
Mining locomotive, General Electric Co.'s 398
Mining railroad, Electric 412
Percussion drill in theory and practice, by H. N. Marvin 103

BATTERIES.

Accumulators, Sulphating of 291
Accumulator traction in Paris 262
Accumulators, Transforming electric energy in 53
Battery cabinet, Fitch 330
Battery, Fuller 125
Battery, Gravity copper anchor for 61
Battery, Kolon primary 72
Battery, Portable galvanic, Jerome Kidder's .. 62
Battery zinc, wasteless, D'Infreville's 137
Battery, Wright Electric Co.'s 77
Cell, Gethins' gravity 14
Primary battery competition 116
Primary battery, Experience with a wonderful 308
Primary batteries, Experience with, G. H. Lee 391
Secondary battery, Colgate's 140
Storage battery, Ford & Washburn's 72
Secondary batteries for central stations 403
Secondary batteries for telegraphic purposes, by W. H. Preece 105
Storage battery, Franklin Electric Co.'s 78
Storage traction in New York City 255
Storage battery on the stage 197
Storage battery roads in large cities 51

CUT OUTS, SWITCHES AND MISCELLANEOUS APPARATUS.

Annunciator, E. D. Moore's 200
Annunciator, Partrick & Carter's 217
Bell, electric, Edwards & Co.'s 183
Burner, By-pass ratchet 330
Burner, Iona hand lighting 265
Burner, Iona safety pendant 250
Cleat, Adjustable china 330
Cleat, Pass & Seymour's single 345
Clock, electric, Standard Electric Time Co.'s 61
Cut-out, ceiling, Iona 137
Cut-out for motors, Pass & Seymour's 93
Cut out, General Electric Co.'s 329
Cut-out, The "Lightning Bug" 233
Cut-outs, Covered "Bug" 157
Gas lighter, Nassau Electric Co.'s 78
Hood for street lamps, Cutter's 362
Insulator, Conover's 183
Insulator pin, Locke's 137
Lamp socket, Arnold's 93
Lamp socket, Baillard's 14
Lightning arrester, Fulmen 45
Lightning arrester, Swinging ball 107
Name plate for push buttons, Edwards & Co.'s 93
Reflector shade, Holman Electrical Co.'s 155
Retouching pencil, An electric 207
Rheostat, Carstaphen, New 398
Rheostats, Carpenter 272
Rosette receptacle, Bryant combination 400
Shade, Germania Universal 301
Switch and fuse-box for railway circuits 125
Switch, combination chandelier, Interior Conduit Co.'s 62
Switch, Edison time 138
Switch, Electrical Eng. & Sup. Co.'s snap 398
Switch, General Electric Co.'s change-over 155
Switch, Hercules 30
Switch, Iona snap 200
Switch, McCreary's rheostat 62
Switch, Pass & Seymour's single pole 46
Switch, Sechrist's automatic 14, 125
Switch, Victor lightning break 231
Switches, C. & C 13
Time and dating stamps, Automatic 382
Wire guard, Acme 362
Wiring computer, Cox's 108

ASSOCIATION AND SOCIETY MEETINGS.

American Association for the Advancement of Science, Rochester meeting of 130
American Electro Therapeutic Association, Annual meeting of 207
American Electro-Therapeutic Association, Its history and purposes 230
American Electro-Therapeutic Association, Report of the annual meeting of 249
American Institute of Electrical Engineers, Annual election of the 190
American Institute of Electrical Engineers, Discussions at the 319
American Institute of Electrical Engineers, Meeting of, Nov. 15 343
American Institute of Electrical Engineers, Report of meeting of, Sept. 27 222
American Street Railway Association, Cleveland convention of 272
American Street Railway Convention, Exhibits at the 240
American Street Railway Association, Notes on the Chicago convention of 281
American Street Railway Association, Programme of the Cleveland meeting 65
Association of Dealers in Street Railway Materials, Organization of 209
Association of Edison Illuminating Companies, 92, 113, 118
British Association, Action of, on electrical standards 174
British Association, Edinburgh meeting of, 86, 113, 114
British Association, Edinburgh meeting of (cable dispatch) 98
Buffalo Electrical Society 409
Chicago Electric Club, Resolutions of 430
Detroit Exposition, Electrical exhibits for 102
Frankfort Exposition, Financial results of 336
Franklin Institute, Lectures at, for 1892-3 269
National Electric Light Association, St. Louis meeting of 409
New York Electrical Society, Winter lectures of 260
Northwestern Electric Light Association 169
Railway Papers at the American Institute, Discussion of 329
Society of Naval and Marine Engineers 397
Street Railway Association of the State of New York 71
Street Railway Association of the State of New York, Report of 206

LEGAL.

Contract for personal services, Legal decision regarding 409
Decision in the storage battery suit 243
Hydro-Carbon lamp suit, Decision in the 8
Incandescent lamp patent case, Text of opinion 408
Incandescent lamp patent decision, Effects of 239, 240
Incandescent lamp patent decision, Opinions regarding 240
Incandescent lamp patent suit continued at Pittsburgh 422
Incandescent lamp patent suit, Preliminary injunction granted against the Sawyer-Man Co 396
Incandescent lamp patent suit, Summary of the arguments in 396
Incandescent lamp patent suit, Text of the opinion 237
Lamp patent case, Swan interference with Edison 51
Litigation, Electric railway 143
Litigation regarding electric railway patents. 291
Newspaper electricity in the courts 83

ATMOSPHERIC ELECTRICITY, &c.

Earth currents, by William Finn 52, 325
Earth currents, by W. H. Preece 120
Earth current disturbances during an electrical storm, by Wm. Finn 115
Earth currents, Utilization of 319
Kite experiments during thunder storms, by A. McAdie 191
Lightning, Conditions under which trees are subject to destruction by 411
Lightning, Killing of 16 dogs by 224
Lightning protectors, Destruction of, by municipal legislation, by W. H. Preece 135
Sun spot disturbances 113

ELECTROLYSIS AND ELECTROMETALLURGY.

Cholera and ozone 367
Electro-metallurgy, by F. M. F. Cazin, 59, 75, 90, 106 123, 151, 167, 179, 198, 214, 231, 248
Electro-metallurgy of zinc 352
Electrolysis, Commercial, by Emile Andreoli, 342, 379, 394
Electrolysis, Problems of commercial, by J. Swinburne 153, 169, 181, 196
Electrolysis, Production of chlorine and alkaline carbonates by 309
Metallic chromium obtained by an electrolytic process 423
Ozone, Generation of, by electricity, by L. K. Böhm 295

EDUCATIONAL.

Alternating current laboratory work at Cornell 362
Compensation of electrical instructors 189
Electrical engineering at Cornell University .. 105
Electrical engineering at the University of Pennsylvania, by C. W. Swoope 68
Electrical engineering, The study of 97
Instruction, Elementary electrical 227
Instruction, Elementary electrical, in New York City 324
Library and laboratory, by C. Wellman Parks, 273, 352
Library method of study, The 173
National physical laboratory, A, by A. G. Webster 89
National physical laboratory, A 173
Physical laboratory, A people's, by F. P. Bergh 145
Physical laboratory, Establishment of a national, by F. G. Bolles and U. S. J. Dunbar .. 174

MECHANICAL.

Ammonia motor system 339
Anti-friction metal, A new 200
Balancing way, Bowsher 216
Belts, Device to prevent slipping of 78
Boilers, Abendroth & Root's, at the World's Fair 381
Boiler, N. Y. Safety Steam Power Co.'s 382
Boiler, Stirling water tube 265
Clutch pulley, Oesterlein 183
Condenser, Conover's independent 14
Condenser, Robertson's 77
Engine, Ball heavy duty 29, 429
Engine, Chandler & Taylor's 61
Engines, Electric light, for steamboats 397
Engine, Racine horizontal 216
Engine, Robb-Armstrong 29
Engine, Strong's vertical 209
Engine, Sturtevant 77
Engine, Quadruple expansion 323
Evans system of transmitting power 217
Feed water heater, Warren Webster's 30
Friction clutch, American Twist Drill Co.'s 264
Friction clutch, Barnes 430
Gas engine, Caldwell & Son's 357
Gas engine exhausts, Noiseless 410
Gas engine, On a new form of, by Joseph Day .. 160
Gas engine, Priestman's 93
Governor stop of the Sioux City Engine Works 430
Grease cup, Lunkenheimer's 30
Lathe, Lodge & Shipley's 285
Piston valve, Hershey, adjustable 125
Pressure regulator, Acton 301
Pump, Dean Bros. 345
Separators, Cochrane's 77
Shafting stand, Lane & Bodley's 232
Speed indicator, The Gem 107
Steam and gas regulator, Electric Thermostat Co.'s 93
Steam turbine, Parson's, Electrical measurements in the Ewing test of 399
Steam turbine, Tests of the Parsons', by J. A. Ewing 375
Steam turbines, Recent development of 351
Time-keeper, Bolte automatic 285
Toolholder, Eberhardt's patent 217
Transmission of power, Ideal system for, The .. 330
Turbine power plant at Great Falls, Mont 22
Turbine regulator; a reliable one wanted 67
Turbine regulators 138
Turbine, Wolf-Keiser 330
Water purifier, Fluoride 216
Water wheels, automatic regulation, by F. E. Pritchard 20
Wire cutter and pipe wrench, Billings' 46
Wire stretcher, Isham's 30
Wheel press for electric railroad work, Watson & Stillman's 77

MISCELLANEOUS.

Accidents to human beings from high tension currents, Statistics concerning 53
Activity of the Fort Wayne Co 301
Agricultural work, Applications of electricity to 353, 369, 389, 421
Aluminium, Temperature coefficient of, by W. P. Marr and R. W. Heard 4
Applications of electricity, Useful, by Elihu Thomson 46
Arc, The electric, by R. S. Dobbie 320
Arc, Voltage of the, by J. R. Cravath 227
Armatures, Heating of, by H. J. Ryan 260
Asbestos, porcelain 329
Block signals of the present and future, by J. B. Stewart 12
Block system, Kinsman's 213
Block system; where it fails 403
British Association Committee on Electrical Standards, Report of, by Dr. O. J. Lodge ... 153
Carbons, by H. O. Fisk 59
Carbons, Manufacture of, at Nuremberg 222
Cataphoresis, Physics of, by A. E. Kennelly ... 294
Chemical industries, Electricity in 291
Chronological history of electricity, by P. F. Mottelay, 152, 162, 195, 211, 225, 244, 261, 295, 311, 326, 343, 360, 378, 410, 424
Clambake of the American Electrical Works .. 78
Clouds, Advertising on the 335, 422
Columbian celebration in N. Y. City, Electrical displays during 256
Comet, Possible electrical effects of 351
Cooking and heating by electricity 241
Cordage for electrical purposes, Silver Lake Co.'s 30
Cost of electric supply, by John Hopkinson, 361, 379, 411
Cost of generating electricity 351
Cross connections in a coil, Simple method of finding 410
Differences of potential generated through contact of metals, liquids and dry electrolytes, by Walter Negbaur 341, 358, 377, 394
Eccentric cylinders, Problem of, by A. E. Kennelly 338
Edison interests in Canada, Consolidation of .. 243
Efficiency diagram, by Carl Hering 100
Election, Effect of, on the electrical industries 319
Election returns by flash light 320
Electric heating 217
Electric heating as compared with heating by coal direct 404
Electrical disinfecting 419
Electrical inventions, Credit and dates for, by A. R. Foote 92
Electrical investments in country districts, by W. N. Black 116
Electrical needs of the times, by H. Franklin Watts 358, 390
Electric therapeutics in America, Short history of 229
Electro therapeutics, Notes on 230
Field, Cyrus W., Will of 102
Field magnet frames, Economic construction of, by A. D. Adams 259
Fire proof insulation 143
Fireproof insulation, by Reginald A. Fessenden 150
Fuse wires, Diagram for calculating 54
Fuse wires, by C. P. Feldmann 411
Fuse wire, Tests of 56
Gases, Passage of electricity through, by Prof. Arthur Schuster 121
Germany, Electrical progress in 190, 274, 340
Glucinum, Use of, in electrical instruments, by R. G. Fessenden 36
Hertz' experiments, Detector for 19
Index, Alphabetical, by subjects for practical men, by F. G. Bolles 352
Individual insulation of electrical objects, by S. S. Bogart 11
Insulation, by T. A. Edison 11
Insurance experts, Meeting of 130
Insurance rules should be uniform 129
Iron, Electrical habits of 324
Japan, Electrical progress in 44
Magnetic circuits, Joints in 255
Magnetic field, Photographic methods of mapping, by C. B. Thwing 207
Magnetic viscosity, by J. & B. Hopkinson 208
Manganin 373
Metal working by electricity, Development of, by F. P. Royce 314
Micanite: A new insulating material, by E. P. Thompson 428
Nomenclature, Electrical 329
Obituary, Field, Cyrus W 52
Obituary, Gisborne, F. N 160
Obituary, Gould, Jay 380
Obituary, Meeker, George W 399
Obituary, Siemens, Dr. Werner 392
Oil vs. air as an insulating medium, by J. B. Williams 344, 361, 380
Okonite cable, An, three and a half miles long. 216
Patent law amendments, by Geo. H. Knight .. 149
Phonographic study of speech 97
Prize money of the meter contest again offered 192
